

Xpect Safety

Xpect has partnered with **Advanced Safety** utilising the digital platform **Site APP Pro** to provide Health & Safety solutions for the development and construction industry. With Advanced Safety, you gain a partner committed to simplifying health and safety, enabling you to concentrate on your core business activities while keeping your team safe and your projects compliant.

The Xpect Safety solution includes:

1. Workplace Health and Safety Management System (WHSMS)

Aligned to HSWA 2015 and ISO45001, includes policy, health and safety manual, and required registers.

2. Onboarding training

Access to Advanced Safety 'how to' micro-learning modules designed to ensure the documentation is customised and tells their business story.

3. Professional health and safety support

Access to the Advanced Safety team to answer all health and safety related questions.

4. Subscription to SiteAppPro

Mobile health and safety reporting tool and online data base that houses the documentation listed in point 1 above and quick links to item 2. The tool includes hazard and incident reporting, site sign in/out, project specific inductions, data reporting, plant and equipment register (as a minimum).

5. Ongoing training

Access to 'how to' micro-learning modules and live weekly webinars.

6. New Zealand-based support

Dedicated phone helpline and online service.

**Contractors, Consultants,
Developers & Project Managers**

"They have a fantastic way of communicating and educating without overwhelming you, this continues to help achieve a lot in a relatively short space of time. Really happy to be working with the Advanced Safety team."

Kelly Wise
TAB NZ / Entain NZ

"Site App Pro has helped streamline things amazingly on-site for us, as before we were using a paper based system. What took us 4 years to achieve, has now taken us 4 months to achieve the same result with Site App Pro"
